

High-precision 3D Printer

Standard or customized equipment
Wide process material choice
Scalable process technology
Adjustable footprint

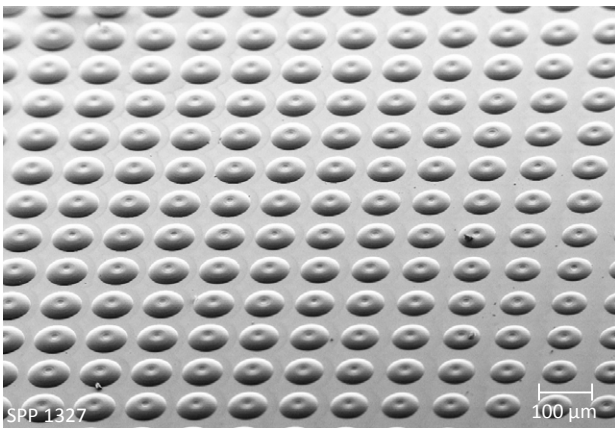

Software

Structure editors
Selectable exposure strategies
Arbitrary microlens fabrication
Repair of damaged STL files

Prototyping Support

3D volume and surface structures

- Optical interconnects
- Photonic packaging
- Microoptical elements
- Biomedical and life science products

Consulting and Engineering

Process development
Analyses
Optical design
Packaging

Multiphoton Optics GmbH – Friedrich-Bergius-Ring 15 – 97076 Würzburg – Germany
